STREAMLINING HEALTHCARE CREDENTIALING

The Federation of State Medical Boards (FSMB) has been a trusted resource for physician licensure and disciplinary information for more than 110 years. Today, the **Physician Data Center (PDC)** makes accessing that data more efficient to expedite credentialing decisions.

PDC has streamlined the credentialing process by aggregating data in a centralized location that gives users access to advanced search features, timely updates from state medical boards, and immediate access to detailed provider reports. Users also receive real-time alerts when providers receive new sanctions or disciplinary actions from state medical boards.

PDC data, maintained by our data-quality experts, is endorsed as an approved source of state medical board sanctions data by the National Committee for Quality Assurance (NCQA) and Joint Commission (JC). Licensure data meets primary source criteria as outlined by the JC and the Utilization Review Accreditation Commission (URAC), and FSMB serves as a designated display agent for the American Board of Medical Specialties (ABMS).

PDC PROFILES INCLUDE:

- NAME
- DATE OF BIRTH
- MEDICAL SCHOOL
- GRADUATION YEAR
- DEGREE
- STATE BOARD SANCTIONS
- FEDERAL SANCTIONS
- LICENSURE VERIFICATION
- NPI NUMBER (PREMIUM PROFILE ONLY)
- ABMS SPECIALTY (PREMIUM PROFILE ONLY)
